

Irena Jovanovska Plestenjak

Software Testing Engineer

Dedicated and results-driven Testing Engineer with six years in the industry helping teams build and ship the right products. Coming from a strong service providing culture with expertise in development of test plans, design and execution of test cases, analysis of test results and defect management. After a productive career break, seeking a role to learn, grow technical skills and leverage test automation.

EXPERIENCE

Intermediate Testing Engineer

Seavus [↗](#)

10/2017 - 9/2020

- Played a key role in the creation and execution of the test plan for a telecom BSS migration project, which led to a successful project delivery;
- Coordinated testing activities and communicated daily with the team in order to sync and improve the development cycle;
- Mentored the testing team on re-factoring and query optimization to improve test efficiency;
- Collaborated daily with team members and clients to address and resolve bugs and impediments, prepare demo sessions and refine user stories;
- Conducted detailed manual testing, identifying and documenting bugs, analyzing requirements and writing test scripts to ensure quality deliverables;

Junior Testing Engineer

Seavus [↗](#)

1/2016 - 9/2017

- Utilized various testing techniques to meticulously assess software functionality of telecom charging systems, ensuring greater test coverage;
- Collaborated with the development team to clarify project requirements and provide insights for quality improvement;
- Supported team members and team's scrum master whenever opportunities presented in order to stay on track with the sprint backlog;
- Contributed to the knowledge base of the internal QA community by writing articles, sharing experiences from projects and delivering presentations;

Junior Developer

Seavus [↗](#)

1/2015 - 12/2015

- Analyzed new functionalities and issues related to surrounding systems and interfaces of CSG Singleview;
- Worked on providing fixes for detected defects using EPM, Perl and SQL;
- Collaborated closely with the system test team, assisting with test scenarios and providing them valuable insights;
- Facilitated the onboarding of new junior peers, sharing knowledge and helping them with assignments;

Trainee

Seavus [↗](#)

10/2014 - 12/2014

- CSG Singleview telecom billing system training;

EDUCATION

BSc in Electrical Engineering and Information Technology Study: Control Systems Engineering and Automation

Ss. Cyril and Methodius University, Skopje; FEEIT [↗](#)

2008 - 2015
